Degree Plan Notes

- Keep in mind that minimum grades on road map are for individual coursework only. Students must maintain a minimum of a 2.0 cumulative grade point average for admission to and graduation from the College of Arts and Sciences. Minimums listed for the individual courses do NOT meet the cumulative minimum.
- BS Chemistry majors have a distributed minor complete with the addition of English 219 and one additional math from 311, 314, 316 to the already required supportive course work.
- Choosing English 219 as the third W/S core course will allow students to also use this course for part of the distributed minor.
